### INDEPENDENT AUDITOR'S REPORT

February 12, 2020

Monongalia County Commission 243 High Street Room 123 Morgantown, WV 26505

To the Board of Commissioners:

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of **Monongalia County**, West Virginia (the County), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to opine on the financial statements based on our audit. We did not audit the financial statements of the Monongalia County Board of Health and Monongalia County Development Authority, which represents 100 percent of the assets, net position and revenues, of the discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Monongalia County Board of Health and Monongalia County Development Authority, is based solely on the reports of the other auditors. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' Government Auditing Standards. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the County's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

### Summary of Opinions

Opinion Unit	Type of Opinion
Governmental Activities	Unmodified
Discretely Presented Component Units	Unmodified
General Fund	Unmodified
Coal Severance Tax Fund	Unmodified
Building Commission Debt Service Fund	Unmodified
University TIF Debt Service Fund	Unmodified
Aggregate Remaining Fund Information	Unmodified

### **Unmodified Opinions**

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the discretely presented component units, each major fund, and the aggregate remaining fund information of the Monongalia County, West Virginia as of June 30, 2019, and the respective changes in its financial position thereof and the respective budgetary comparison for the General Fund and Coal Severance Tax Special Revenue Fund for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include schedules of net pension and OPEB liabilities and pension and OPEB contributions, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

### Supplementary and Other Information

Our audit was conducted to opine on the County's basic financial statements taken as a whole.

The introductory section and the budgetary comparison schedule for the Assessor's Valuation Fund are presented for the purposes of additional analysis and are not required parts of the basic financial statements.

The schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on it.

Monongalia County Commission Independent Auditor's Report Page 3

### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated February 12, 2020 on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the County's internal control over financial reporting and compliance.

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2019

The discussion and analysis of Monongalia County's (the "County") financial performance provides an overall review of the County's financial activities for the fiscal year ended June 30, 2019. The intent of this discussion and analysis is to look at the County's financial performance as a whole; readers are encouraged to consider the information presented here in conjunction with the additional information contained in the financial statements and the notes thereof.

### Financial Highlights

Key financial highlights for 2019 are as follows:

- ◆ The assets and deferred outflows of resources of Monongalia County were less than its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$85,578,326. Of this amount, \$9,805,881 is restricted in use.
- ♦ Total assets and deferred outflows increased by \$80,393, which represents a less than one percent increase over 2018. The primary change that contributed to this increase was the increase in current assets related to receivables.
- ◆ Total liabilities and deferred inflows of resources increased by \$25,222,354, which represents an increase of 20 percent over 2018. The main factor contributing to this increase was the issuance of \$13,325,266 in TIF bonds payable and the issuance of \$13,431,020 in Excise tax bonds payable, related to the University Town Centre project.
- ♦ In total, net position decreased by \$22,328,797 during 2019. This represents a 35 percent decrease from 2018.
- ◆ For 2019, the County's net pension liability decreased by \$1,367,629 and the OPEB liability decreased by \$437,841, for a total decrease of \$1,805,470.

### Using this Annual Financial Report

This discussion and analysis is intended to serve as an introduction to Monongalia County's basic financial statements. Monongalia County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

### Government-Wide Financial Statements - Reporting Monongalia County as a Whole

Statement of Net Position and the Statement of Activities

The statement of net position presents information on all Monongalia County's assets and deferred outflows of resources and liabilities and deferred inflows of resources, with the difference between the four reported as *net position*. Over time, increase or decrease in net position may serve as a useful indicator of whether the financial position of Monongalia County is improving or deteriorating. However, in evaluating the overall position of the County, nonfinancial factors such as the County's tax base, change in property and municipal income tax laws, and the condition of the capital assets should also be considered.

West Virginia

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2019

The statement of activities presents information showing how the County's net position changed during the recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned, but unused vacation leave).

Both the statement of net position and the statement of activities use the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

In the statement of net position and the statement of activities, we report the County activities as follows:

• Governmental activities: most of the County's basic services are reported here, including law enforcement for unincorporated areas of the County, health and social services, cultural and recreational programs, and other governmental services. Property and other taxes, state and county taxes, licenses, permits and charges for services finance most of these activities.

### Fund Financial Statements - Reporting Monongalia County's Most Significant Funds

### Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objects. Monongalia County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Monongalia County are reported as governmental funds.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on the balance of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the County's general government operations and the basic services it provides. Both the governmental fund balance sheet and the government fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate a comparison between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds.

Information on the County's individual governmental funds is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances, for the general fund, coal severance tax fund, and the university town center debt service fund, all of which are considered to be major funds. The remaining funds are combined and presented within the column titled other nonmajor governmental funds.

West Virginia

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2019

Notes to the Financial Statements: The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found after the basic financial statement of this report.

West Virginia

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2019

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OBEP liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of West Virginia's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability to equal the County's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2. Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the County is not responsible for certain key factors affecting the balance of these liabilities. In West Virginia, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In West Virginia, there is no legal means to enforce the unfunded liability of the pension/OPEB plan as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

West Virginia

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2019

In accordance with GASB 68 and GASB 75, the County's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability, respectively, not accounted for as deferred inflows/outflows. As a result, the County is reporting a net OPEB liability and deferred inflows/outflows of resources related to OPEB on the accrual basis of accounting.

A portion of the County's net position reflects its net investment in capital assets. Capital assets include construction in progress, land, land improvements, buildings and improvements, machinery and equipment, vehicles and infrastructure. The County uses those capital assets to provide services to its citizens; consequently, they are not available for future spending. Net investment in capital assets as of June 30, 2019, was \$20,500,336. Although the County's investment is reported net of related debt, it should be noted that resources to repay the debt must be provided from other sources since capital assets cannot be used to liquidate these liabilities.

An additional portion of the County's net position represents resources that have been restricted on how they may be used. The remaining balance of unrestricted net position of a negative \$115,884,543 may be used to meet the County's ongoing obligations to citizens and creditors.

Total net position of the County decreased \$22,328,797. The following factors were primarily responsible for this decrease:

- A decrease in current and other assets of \$598,187.
- An increase in capital assets, net of \$1,207,992.
- A decrease in deferred outflows of resources pension and OPEB of \$241,446.
- A decrease in net pension liability of \$1,367,629.
- A decrease in net OPEB liability of \$437,841.
- An increase in deferred inflows of resources pension and OPEB of \$3,152,384.
- An increase in other long-term liabilities of \$24,284,672.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for the current year in comparison to 2018.

West Virginia

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2019

### Governmental Activities

Several revenue sources fund our governmental activities with the property tax being the largest contributor. During 2019, the revenues generated from property tax collections amounted to \$28,384,518, which represents 73 percent of all County general revenues.

West Virginia

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2019

General government and public safety are the major activities of the County generating 46 percent of the governmental expenses. Public safety includes the cost of providing police, dispatch, and fire services. Techniques such as defensive and emergency vehicle operations training, technical skills evaluation, practical drills, and on-line education help keep the men and women updated to perform their jobs most efficiently.

General government expense accounted for \$18,173,004, or 25 percent, of the governmental expenses. Expenses for this program increased \$2,983,675 compared to 2018. The increase in expense is due to a combined increase in wages and health care and workers compensation expenditures, and increases in repairs and maintenance expenditures that did not meet capitalization threshold during the current year.

Capital projects expense accounted for \$27,687,952, or 39 percent, of the governmental expenses. Expenses for this program decreased \$2,635,217 compared to 2018 due to a decrease in expenditures related to the University Town Center project and related TIF and excise tax bond activity.

### The County's Funds

### Governmental Funds

Information about the County's major funds starts on the balance sheet. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$49,179,747, other financing sources of \$33,765,657, expenditures of \$77,277,829 and other financing uses of \$6,140,371. Overall fund balance decreased \$472,796, or 2 percent during the year.

The net change in fund balance for the year was most significant in general fund, showing a decrease in fund balance of \$1,204,997 in 2019 which decreases its fund balance to \$9,581,941.

The net change in fund balance in the university town center debt service fund was a decrease of \$402,062 in 2019 which decreases its fund balance to \$8,697,509. Restricted cash decreased to \$9,049,473 as unspent TIF and excise tax bond proceeds remained on hand at the end of the year. The coal severance tax fund reflected a decrease of \$53,841, or 21 percent. Net change in fund balance for all other non-major funds was an increase of \$1,188,104, or 29 percent.

### General Fund Budgeting Highlights

The County's budget is prepared according to West Virginia law and is based on accounting for certain transactions on the basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund. An annual appropriation budget is legally required to be prepared for all funds of the County other than agency funds. County Commissioners are provided with a detailed line item budget for all departments and after a discussion at a regularly held meeting, which is open to the public; the budget is adopted by the Commissioners. The Commissioners must approve legislation for any revisions in the budget that alter totals or the total appropriations for any department or fund. The finance department watches all the departmental budgets closely to monitor compliance with allocated budgets and provides monthly reports to the County Commissioners depicting monthly and year-to-date activity.

West Virginia

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2019

For the general fund, final budget basis revenue, excluding other financing sources was \$30,337,105, more than the original budget estimates of \$27,142,781. The County continues the conservative practice of estimating low in the tax, intergovernmental revenue and interest revenue areas. The final appropriations of \$40,758,493, excluding other financing uses, was sufficient to meet the expenditures for the year, which ended up at \$33,297,065. The final budget of expenditures, excluding other financing uses, increased \$5,658,916 from the original budget.

The County's ending unobligated budgetary fund balance was \$9,581,941, higher than the final budgeted amount.

### **Capital Assets and Debt Administration**

### Capital Assets

At the end of fiscal 2019, Monongalia County had \$35,837,221, invested in land, construction in progress, buildings and improvements, structures and improvements and machinery and equipment, net of accumulated depreciation.

Table 3 shows fiscal 2019 balances of capital assets as compared to the 2018 balances:

Table 3

Capital Assets at December 31
(Net of Accumulated Depreciation)

Governmental

		Activ				
		2019	2018	Change		
Construction in Progress	\$	3,450,000	\$ 750,000	\$	2,700,000

Buildings and Improvements		35,854,328	35,854,328		-	
Structures and Improvements		5,464,911	5,464,911		_	
Machinery and Equipment		5,805,280	5,739,719		65,561	
Less: Total Accumulated Depreciation		(15,721,498)	 (14,163,929)		(1,557,569)	
Total Capital Assets		\$35,837,221	\$34,629,229	\$	1,207,992	

The County has an aggressive stance on maintaining its assets, including infrastructure, in excellent condition. Vehicles such as trucks and plows are planned for well in advance by the respective department heads and a scheduled maintenance and replacement timetable is followed to provide peak performance for the maximum time frame. Vehicles no longer in service are either traded in or sold at an auction or online.

Additional information concerning the County's capital assets can be found in the Note C to the financial statements.

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2019

### Debt

At June 30, 2019, Monongalia County had \$145,957,457 in outstanding debt, notes payable, net pension liability, net OPEB liability and compensated absences payable, of which \$141,212,401 was in bonds payable. Table 4 summarizes the outstanding obligations of the County.

Table 4
Outstanding Long-term Obligations at Year End

	Gov	ernmental Activi	ties				
		2019		2018	Change		
Lease Revenue Bonds,							
net of premium and discount	\$	14,603,235	\$	15,336,885	\$	733,650	
TIF Bonds		32,426,254		19,793,988		(12,632,266)	
Excise Tax Bonds, net of discount		94,182,912		81,593,477		(12,589,435)	
Notes Payable		259,710		519,420		259,710	
Net Pension Liability		1,435,452		2,803,081		1,367,629	
Net OPEB Liability		2,226,903		2,664,744		437,841	
Compensated Absences		822,991		766,660		(56,331)	
Total		\$145,957,457		\$123,478,255	\$	(22,479,202)	

Lease revenue bonds were issued for the design, acquisition, construction, and equipping of a Monongalia County Justice Center. The TIF bonds consist of projects related to the Morgantown Industrial Park, the Monongalia General Hospital, the Star City project, and the University Town Center project.

Other obligations include notes payable, the net pension liability, the net OPEB liability and accrued compensated absences. Additional information concerning the County's debt can be found in Note G to the financial statements.

### Current Related Financial Activities

As previously stated, the fund balance in the General Fund increased in 2019 as a result of the property and other taxes revenue increases. Due to the stagnation in the national economy and increases in federal and state funding cutbacks in recent years, the Commissioners and the department heads have worked diligently in reducing expenses. The Commissioners are reviewing all "non-statutorily" mandated expenditure functions to determine what can be further reduced and/or eliminated, and they are stringently monitoring all expenses and are curtailing travel and equipment purchases unless absolutely needed.

The County's portion of federal and state-based revenue has also been affected by the economic conditions. The State of West Virginia has experienced revenue losses and, as a result, has instituted cutbacks to state agencies and in their allocations to county and other local governments. These reduced federal and state funding/reimbursements for various programs have, in some cases, resulted in additional pressure on the General Fund balance.

West Virginia

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2019

Inflationary trends for the County improved in 2019. Monongalia County's economy has been resilient in contrast to other counties in the State of West Virginia who are facing significant financial hardships and budget reductions. The key factor is the County's diversified commercial and industrial economic base. The County is fortunate to have a fairly large amount of undeveloped land in the portions of the County which can hopefully house future new development once the economy improves.

### Contacting Monongalia County's Finance Department

This financial report is designed to provide our citizen's, taxpayers, investors and creditors with a general overview of the County's finances and to show the County's accountability for all money it receives, spends, or invests. If you have any questions about this report or need additional financial information, contact County Administrator, Rennetta McClure, Monongalia County, Morgantown, West Virginia 26505, telephone (304) 291-7293.

### MONONGALIA COUNTY, WEST VIRGINIA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO

# THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2019

Amounts reported for governmental activities in the statement of activities are different because:

Amounts reported for governmental activities in the statement of activities are different because:		
Net change in fund balances - total governmental funds	\$	(472,796)
Capital outlays are reported as an expenditure in the governmental funds but are considered an asset at the government-wide level. This is the amount of capital assets that were purchased during the fiscal year. (Note III.C.)		3,022,723
Capital outlays are reported as an expenditure in the governmental funds. In the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of depreciation expense charged during the year. (Note III.C.)		(1,789,017)
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, tradeins, and donations) is to decrease net position. (Note III.C.)		(25,714)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. This is the difference between prior and current year unavailable/unearned revenues.  Prior year unavailable/unearned revenues: \$1,560,962  Current year unavailable/unearned revenues: \$1,556,837		(4,125)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. (Note III.G.)		(24,488,051)
Certain pension & OPEB expenses in the statement of activities are recognized on the accrual basis of accounting in accordance with GASB 68. (Note V)  Amount of pension & OPEB expenditures at fund level PERS  Amount of pension & OPEB expenses recognized at government-wide level PERS		946,832 277,972
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. (Note III.G.)	_	203,379
Change in net position of governmental activities	\$_	(22,328,797)

### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Monongalia County, West Virginia (the government), conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of significant accounting policies:

### A. Reporting Entity

Monongalia County is one of fifty-five counties established under the Constitution and the Laws of the State of West Virginia. There are six offices elected county-wide, which are: County Commission, County Clerk, Circuit Clerk, Assessor, Sheriff, and Prosecuting Attorney.

The County Commission is the legislative body for the government, and as such budgets and provides all the funding used by the separate Constitutional Offices except for the offices of the Assessor and the Sheriff, which also have additional revenue sources. The County Clerk's office maintains the accounting system for the County's operations. The operations of the County as a whole, however, including all the Constitutional offices have been combined in these financial statements.

The services provided by the government and accounted for within these financial statements include law enforcement for unincorporated areas of the County, health and social services, cultural and recreational programs, and other governmental services.

The accompanying financial statements present the government and its component units as required by generally accepted accounting principles. In determining whether to include a governmental department, agency, commission or organization as a component unit, the government must evaluate each entity as to whether they are legally separate and financially accountable based on the criteria set forth by the Governmental Accounting Standards Board (GASB). Legal separateness is evaluated on the basis of: (1) its corporate name, (2) the right to sue and be sued, and (3) the right to buy, sell or lease and mortgage property. Financial accountability is based on: (1) the appointment of the governing authority and (2) the ability to impose will or (3) the providing of specific financial benefit or imposition of specific financial burden. Another factor to consider in this evaluation is whether an entity is fiscally dependent on the County.

### Blended Component Unit

The entity below is legally separate from the County and meets GASB criteria for component units. This entity is blended with the primary government because it provides services entirely or almost entirely to the County.

The Monongalia County Building Commission serves Monongalia County, West Virginia, and is governed by a board comprised of five members appointed by the County Commission for a term of six years each. The Building Commission acquires property and debt on behalf of the County.

Complete financial statements for each of the individual component units can be obtained at the entity's administrative offices.

### Jointly Governed Organizations

The County, in conjunction with the City of Morgantown, has created the Monongalia County Urban Mass Transit Authority. The authority is composed of seven members with three members appointed by the Monongalia County Commission, three members appointed by the City of Morgantown, and a seventh being an agreed upon appointee who is a representative of West Virginia University.

### B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues. Interest on general long-term debt liabilities is considered an indirect expense and is reported in the Statement of Activities as a separate line.

Separate fund financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. Combining financial statements for the nonmajor governmental funds are included as supplementary information.

#### C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied and collectible. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collectible within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, interest and special assessments are susceptible to accrual. Other receipts and taxes become measurable and available when cash is received by the government and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The government reports the following major governmental funds:

The General fund is the government's primary operating fund. It accounts for all financial sources of the general government, except those required to be accounted for in another fund.

The Coal Severance Tax fund, a special revenue fund, accounts for revenues and expenditures from a severance tax placed on coal that is distributed to West Virginia counties. The State Auditor's Office requires an annual budget be submitted for approval for this fund.

The University Town Center Debt Service fund, a debt service fund, accounts for the activity in the trustee bank accounts associated with bonds issued by the Monongalia County Commission for the University Series bonds.

Additionally, the government reports the following fund types:

The agency funds are custodial in nature (assets equal liabilities) and do not present results of operations or have a measurement focus. Agency funds are accounted for using the full accrual basis of accounting. These funds are used to account for assets that Monongalia County, West Virginia holds for others in an agency capacity.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

### D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position

### 1. Deposits and Investments

Monongalia County, West Virginia's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of less than three months from the date of acquisition.

In accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, the County reports its investments at fair value, except for non-participating investment contracts (certificates of deposit and repurchase agreements) which are reported at cost, which approximates fair value. All investment income, including changes in fair value of investments, are recognized as revenue in the operating statement. Fair value is determined by quoted market prices.

State statutes authorize the government to enter into agreements with the State Treasurer for the investment of monies. Authority is provided for investment in the Investment Management Board, the West Virginia Board of Treasury or the Municipal Bond Commission, or to invest such funds in the following classes of securities: Any investment company or investment trust registered under the Investment Company Act of 1940, 15 U.S.C. §80a, the portfolio of which is limited: (i) To obligations issued by or guaranteed as to the payment of both principal and interest by the United States of America or its agencies or instrumentalities; and (ii) to repurchase agreements fully collateralized by obligations of the United States government or its agencies or instrumentalities: Provided, That the investment company or investment trust takes delivery of the collateral either directly or through an authorized custodian: Provided, however, That the investment company or investment trust is rated within one of the top two rating categories of any nationally recognized rating service such as Moody's or Standard & Poor's.

### 2. Receivables and Payables

Property Tax Receivable

The property tax receivable allowance is equal to 16 percent of the property taxes outstanding at June 30, 2019.

All current taxes assessed on real and personal property may be paid in two installments; the first installment is payable on September first of the year for which the assessment is made, and becomes delinquent on October first; the second installment is payable on the first day the following March and becomes delinquent on April first. Taxes paid on or before the date when they are payable, including both first and second installments, are subject to a discount of two and one-half percent. If the taxes are not paid on or before the date in which they become delinquent, including both first and second installments, interest at the rate of nine percent per annum is added from the date they become delinquent until the date they are paid. Taxes paid on or before the date are allowed a two and one half percent discount. A tax lien is issued for all unpaid real estate taxes as of the date of the sheriff's sale and these liens are sold between October 14th and November 23rd of each year. Sixty days of estimated property tax collections are recorded in revenues at the end of each fiscal year.

All counties within the state are authorized to levy taxes not in excess of the following maximum levies per \$100 of assessed valuation: On Class I property, fourteen and three-tenths cents (14.30 cents); On Class II property, twenty-eight and six-tenths cents (28.60 cents); On Class III property, fifty-seven and two-tenths cents (57.20 cents); On Class IV property, fifty-seven and two-tenths cents (57.20 cents). In addition, counties may provide for an election to lay an excess levy; the rates not to exceed statutory limitations, provided at least sixty percent of the voters cast ballots in favor of the excess levy.

The rates levied by the County per \$100 of assessed valuation for each class of property for the fiscal year ended June 30 were as follows:

		Assessed			Parks and	Fire	Public
Class of		Valuation For	Current	Mass Transit	Recreation	Protection	Libraries
Property	_	Tax Purposes	Expense	Excess Levy	Excess Levy	Excess Levy	Excess Levy
Class I	\$	-	11.88 cents	1.10 cents	0.58 cents	0.38 cents	0.27 cents
Class II		2,596,603,277	23.76 cents	2.20 cents	1.16 cents	0.76 cents	0.54 cents
Class III		2,374,183,152	47.52 cents	4.40 cents	2.32 cents	1.52 cents	1.08 cents
Class IV		1,214,086,243	47.52 cents	4.40 cents	2.32 cents	1.52 cents	1.08 cents

Monongalia County, West Virginia held a special election on May 10, 2016. The County was authorized to lay an excess levy to provide approximately \$1,803,711 annually during the five fiscal years ended June 30, 2017 through June 30, 2021, for the purpose of contributing funds from such levy to the Monongalia County Urban Mass Transportation Authority (Mountain Line) for the acquisition of equipment and other capital improvements, and payment of a portion of its general operating, maintenance and other expenses.

Monongalia County, West Virginia held a special election on May 10, 2016. The County was authorized to lay an excess levy to provide approximately \$951,047 annually during the five fiscal years ended June 30, 2017 through June 30, 2021, for the purpose of providing funding and maintenance of the Parks, Trails, and Recreation programs. Those funding items include: Operation, Expenses, and other Capital Improvements for Camp Muffly Park, Chestnut Ridge Park, Mason-Dixon Historical Park, Mon River and Deckers Creek Rail-Trails, Westover Park Baseball Facilities, Cheat Lake and Laurel Point soccer fields, and the Morgantown Ice Arena.

Monongalia County, West Virginia held a special election on May 10, 2016. The County was authorized to lay an excess levy to provide approximately \$688,689 annually during the five fiscal years ended June 30, 2017 through June 30, 2021, for the Monongalia County Volunteer Fire Departments, the Monongalia Hazardous Incident Response Team, the Monongalia County Brush Fire Team, and the Monongalia County Volunteer Fire Companies Association Inc.

Monongalia County, West Virginia held a special election on May 10, 2016. The County was authorized to lay an excess levy to provide approximately \$442,730 annually during the five fiscal years ended June 30, 2017 through June 30, 2021, for the Morgantown Public Library System.

## MONONGALIA COUNTY, WEST VIRGINIA NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended June 30, 2019

### 3. Restricted Assets

Certain assets of the University Town Center Project Debt Service fund, the Star City Project Debt Service fund, the Morgantown Industrial Project Debt Service fund, the Mon General Project Debt Service fund, and the Justice Center Project Debt Service fund are classified as restricted assets because their use is restricted by bond agreements.

The "regular" account is used to segregate resources accumulated for debt service payments over the next twelve months.

The "reserve" account is used to report resources set aside to make up potential future deficiencies in the regular account.

The "reserve for construction account" is used to report those proceeds of revenue bonds that are restricted for use in construction.

### 4. Capital Assets and Depreciation

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 or more and estimated to have a useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

The government depreciates the capital assets using the straight-line method. Capital assets depreciation and capitalization policies are defined by the government as follows:

	Straight-line	Inventory	Capitalize/
Asset	Years	Purposes	Depreciate
Land	not applicable	\$ 1	\$ Capitalize only
Land improvement	20 to 30 years	1	5,000
Building	40 years	1	5,000
Building improvements	20 to 25 years	1	5,000
Construction in progress	not applicable	1	Capitalize only
Equipment	5 to 10 years	1,000	5,000
Vehicles	5 to 10 years	1,000	5,500
Infrastructure	40 to 50 years	50,000	100,000

### 5. Compensated Absences

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation pay is accrued when incurred in the government-wide and fiduciary fund financial statements in accordance with GASB Statement No. 16, Accounting for Compensated Absences.

### 6. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

### 7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will *not* be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

### 8. Fund Balances

In the governmental fund financial statements, fund balance is reported in five classifications.

Nonspendable fund balance	Inventories and prepaid amounts represent fund balance amounts that are not in spendable form.
Restricted	The restricted category is the portion of fund balance that is externally imposed by creditors, grantors, contributors or laws or regulations. It also is imposed by law through constitutional provisions or enabling legislation.
Committed	The committed category is the portion of fund balance whose use is constrained by limitations have been approved by an order (the highest level of formal action) of the County Commission, and that remain binding unless removed in the same manner. The approval does not automatically lapse at the end of the fiscal year. The government does not have any committed fund balance this fiscal year.
Assigned	The assigned category is the portion of fund balance that has been approved by formal action of the County Commission for any amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed.
Unassigned	The unassigned category is the portion of fund balance that has not been reported in any other classification. Only the general fund can report a positive amount of unassigned fund balance. However, any governmental fund in a deficit position could report a negative amount of unassigned fund balance.

The County Commission is the government's highest level of decision-making authority. The Commission would take formal action to establish, and modify or rescrind, a fund balance commitment or to assign fund balance amounts to a specific purpose. The government has adopted a revenue spending policy that provides guidance for programs with multiple revenue sources. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The government has the authority to deviate from this policy if it is in the best interest of the County.

The County has not adopted a minimum fund balance policy that requires management to maintain a total spendable general fund balance.

### 9. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of the resources related to pensions, and pension expense, information about the fiduciary net position of Monongalia County's Public Employee Retirement System (PERS) and Deputy Sheriffs' Retirement System (DSRS) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the PERS and DSRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### 10. Other Post-Employment Benefits (OPEB)

It is the Commission's policy to permit employees to accumulate earned but unused sick pay benefits. Sick benefits can be accumulated for unlimited days and carried forward to the subsequent fiscal year. When separated from employment, employees' sick leave benefits are considered ended and no reimbursement is provided. However, upon retirement, an employee's accumulated annual sick leave may be converted to a greater retirement benefit or payment of the retired employee's health insurance premiums. The cost of the increased retirement option is the liability of the West Virginia Consolidated Public Retirement Board. The payment of health insurance premiums must be absorbed by the last agency employing the retiree and is included as part of the OPEB liability.

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the State OPEB Plan and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by West Virginia Retiree Health Benefit Trust Fund (RHBT). For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for certain pooled investments, money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at amortized cost. See Note W for further discussion.

### II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

### **Budgetary Information**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund and the Coal Severance Tax Special Revenue Fund. All annual appropriations lapse at fiscal year end.

Monongalia County, West Virginia prepares its budget on the cash less accounts payable basis of accounting. Therefore, a reconciliation has been performed on the Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual for both the General and Coal Severance Tax Funds.

Prior to March 2nd of each year, the various elected officials submit to the County Commission proposed requests for their respective offices for the fiscal year commencing July 1. Upon review and approval of these requests, the County Commission prepares proposed budgets on forms prescribed by the State Auditor and submits them to the State Auditor by March 28 for approval. The County Commission then reconvenes on the third Tuesday in April to hear objections from the public and to formally lay the levy.

The appropriated budget is prepared by fund, function and department. Transfers of appropriations between departments and revenue related revisions to the budget require approval from the governing council and then submission to the State Auditor for approval. Revisions become effective when approved by the State Auditor and budgeted amounts in the financial statements reflect only such approved amounts. The governing body made the following material supplementary budgetary appropriations throughout the year.

Description	General Fund Amount	Coal Severance Amount
General government expenditure increase	\$ 2,222,076	\$ 192,433
Public safety expenditure increase	730,546	-
Health and sanitation expenditure increase	5,294	-
Culture and recreation expenditure increase	396,000	-
Social services expenditure increase	5,000	-

### III. DETAILED NOTES ON ALL FUNDS

### A. Deposits and Investments

At year-end, the government had no investments.

Custodial Credit Risk

For deposits, the government could be exposed to risk in the event of a bank failure where the government's deposits may not be returned. The government's policy for custodial credit risk is to comply with statutory provisions for depository bond coverage, which provides that no public money should be deposited until the banking institution designated executes a bond with good and sufficient sureties which may not be less than the maximum sum that is deposited in the depository at any one time.

At year end, the government's bank balances were lower than book balances. The bank balance was collateralized by federal depository insurance or with securities held by the pledging financial institution's trust department or agent in the government's name.

A reconciliation of cash and investments as shown on the Statement of Net Position of the primary government and Statement of Net Position of the Fiduciary Funds is as follows:

Cash and cash equivalents	\$ 14,643,273
Cash and cash equivalents-restricted	9,805,881
Cash and cash equivalents-restricted (fiduciary)	 1,845,453
Total	\$ 26,294,607

### B. Receivables

Receivables at year end for the government's individual major and aggregate nonmajor funds, and aggregate fiduciary funds, including applicable allowances for uncollectible accounts, are as follows:

			Offici			
			Nonmajor			
		General	Governmental	Total		Fiduciary
Receivables:	_				_	
Taxes	\$_	1,718,123 \$	332,209 \$	2,050,332	\$_	6,200,215
Gross Receivables		1,718,123	332,209	2,050,332	_	6,200,215
Less: Allowance						
for Uncollectible	_	(274,900)	(52,824)	(327,724)	_	-
Net Total Receivables	\$	1,443,223 \$	279,385 \$	1,722,608	\$	6,200,215

Governmental funds report unavailable/unearned revenue in connection with receivables for revenue that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unavailable revenue and unearned revenue reported in the governmental funds were as follows:

		Deferred
		Inflows -
		Unavailable
Delinquent property taxes receivable (General Fund)	\$	1,315,269
Delinquent property taxes receivable (Other Nonmajor Governmental Funds)	_	241,568
Total unavailable/uneamed revenue for governmental funds	\$	1,556,837

#### C. Capital Assets

Capital asset activity for the fiscal year ended June 30, 2019, was as follows:

	_	Primary Government						
		Beginning			Ending			
		Balance	Increases	Decreases	Balance			
Governmental activities:								
Capital assets, not being depreciated:								
Land	\$	984,200 \$	- \$	- \$	984,200			
Construction in progress	-	750,000	2,700,000		3,450,000			
Total capital assets not being depreciated		1,734,200	2,700,000	<u> </u>	4,434,200			
Capital assets being depreciated:								
Buildings and improvements		35,854,328	-	-	35,854,328			
Structures and improvements		5,464,911	-	-	5,464,911			
Machinery and equipment		5,739,719	322,723	(257,162)	5,805,280			
Less: Total accumulated depreciation	-	(14,163,929)	(1,789,017)	231,448	(15,721,498)			
Total capital assets being depreciated, net	-	32,895,029	(1,466,294)	(25,714)	31,403,021			
Governmental activities capital assets, net	\$ =	34,629,229 \$	1,233,706 \$	(25,714) \$	35,837,221			
Depreciation expense was charged to functions/pro	grams	of the primary go	vernment as follow	/S:				
Governmental activities:								
General government				\$	1,457,344			
Public safety					280,033			
Health and sanitation					11,708			
Culture and recreation					39,896			
Social services					36			
Total depreciation expense-governmental activities				\$	1,789,017			

#### Construction in Progress

The government has active construction projects as of the fiscal year ended June 30, 2019. The projects include the extension office at Mylan Park. At year end the amounts for governmental activities spent-to-date are as follows:

		Spent-to
Project	<u>Funded</u>	<u>Date</u>

#### F. Notes Payable

The government has entered into a loan agreement dated July 1, 2015, with Nationwide Capital, LLC. The economic substance of the loan is that the County Clerk with the consent and approval of the County Commission is financing equipment, software and services for elections and, accordingly, it is recorded in the County Commission's liabilities. The loan was for \$1,298,550 with an interest rate of 0% for a period of 48 months from the date of the loan. The outstanding balance at June 30, 2019, was \$259,710.

The future minimum loan obligation and the net present value of these minimum loan payments as of the fiscal year ended June 30, 2019, were as follows:

	Governmer	ntal Activities
Fiscal Year Ending June 30,	 Principal	Interest
2020	\$ 259,710 \$	***
Total	\$ 259,710 \$	<u> </u>

#### G. Long-term Debt

Revenue Bonds

The county issues bonds where the government pledges income derived either from acquired or constructed assets to pay debt service. Revenue bonds currently outstanding are as follows:

Governmental Activities								
Purpose	Maturity Date	Interest Rates		Issued		Retired	_	Balance June 30, 2019
Building Commission Series 2014A	2/1/2034	3.00%	\$	18,070,000	\$	3,520,000	\$_	14,550,000

Monongalia County Building Commission Taxable Lease Revenue bonds, Series 2014A (Monongalia County Justice Center)

On March 13, 2014, the Monongalia County Building Commission, a blended component unit of Monongalia County, West Virginia, issued \$18,070,000 of Monongalia County Building Commission Lease Revenue Bonds, Series 2014 A (Monongalia County Justice Center) bearing interest at 3%. The proceeds of these bonds are being used to finance the design, acquisition, construction, and equipping of a Monongalia County Justice Center. The bonds are secured by the Justice Center and an irrevocable pledge of lease payments, which are required to be in sufficient amount to pay principal and interest on the bonds when due. The total principal and interest remaining to be paid on the bond is \$20,432,123. Lease revenue bond debt service requirements to maturity are as follows:

		Governmental Activities
Fiscal Year Ending June 30.	Princi	ipal Interest
2020	\$ 76	50,000 \$ 523,015
2021	77	75,000 507,815

Total	\$14,55	50,000 \$ 4,699,308

Pledged Revenues - Lease Revenue Bonds

The Monongalia County Building Commission, a blended component unit of Monongalia County, West Virginia, has pledged future lease rentals to be paid by the Monongalia County Commission to repay \$18,070,000 in lease revenue bonds issued in 2014. Proceeds from the bonds provided financing for the B1018. The bonds are payable solely from lease revenues paid by the County Commission through 2036. Annual principal and interest payments on the bonds are expected to require 100 percent of net revenues. The total principal and interest remaining to be paid on the bonds outstanding is \$19,249,308. Principal and interest paid for the current year and total customer net revenues were \$1,285,215 and \$538,290, respectively.

Tax Increment Financing (TIF) Revenue Bonds

The county issues bonds where the government pledges income derived from tax increment financing revenue to pay debt service. Tax increment financing (TIF) revenue bonds currently outstanding are as follows:

Governmental Activities

Tax Increment Financing (TIF) Revenue & Refunding Bonds (Morgantown Industrial Park) Series 2017A

In 2009, the Monongalia County Commission issued Tax Increment Financing (TIF) revenue bonds to provide funds to finance the cost for the design, acquisition, construction, and equipping of certain infrastructure improvements in Monongalia County, West Virginia, consisting generally of all or some of the following: acquisition and construction of certain infrastructure improvements in the Development District, which improvements include upgrade of roads, sanitary sewer and water lines, including the installation of a required surge tank to handle the gray water and sanitary discharge anticipated with business expansion, installation of necessary storm water management systems to accommodate the additional runoff from the expanded road system and provide for the necessary expansion of natural gas and electric lines to facilitate future business expansion and other related infrastructure and utilities improvements and all necessary appurtenances. The Series 2009 Bonds were currently refunded and re-issued in November of 2017 in the aggregate principal amount of \$5,284,721 of which \$2,226,370 is the amount outstanding. The bonds do not constitute a general obligation, or pledge of the full faith and credit of the County of Monongalia. The principal and interest on the tax increment revenue bonds are to be paid solely by the property taxes generated in association with the increased assessed values of property within the TIF district area. Estimated annual debt service requirements to maturity for the tax increment financing bonds that are not available as the project is not complete and the loan is still being drawn down

Pledged Revenues - Tax Increment Financing (TIF) Revenue Bonds

The County has pledged future tax increment revenue to repay \$5,284,721 in tax increment financing revenue bonds issued in 2017 of which \$3,245,370 has been advanced, \$1,019,000 has been repaid and \$2,226,370 is outstanding. Proceeds from the bonds provided financing for the design, acquisition and construction of certain infrastructure improvements in Monongalia County, West Virginia, consisting generally of all or some of the following: acquisition and construction of certain infrastructure improvements in the Development District, which improvements include upgrade of roads, sanitary sewer and water lines, including the installation of a required surge tank to handle the gray water and sanitary discharge anticipated with business expansion, installation of necessary storm water management systems to accommodate the additional runoff from the expanded road system and provide for the necessary expansion of natural gas and electric lines to facilitate future business expansion and other related infrastructure and utilities improvements and all necessary appurtenances. The bonds are payable solely from the tax increment property taxes assessed and are collected in the district area and are payable through 2033. Annual principal and interest payments on the bonds are expected to require less than 100 percent of net revenues. The total estimated principal and interest remaining to be paid on the bonds are not yet available as the loan is still being drawn down. Principal and interest paid for the current year and total customer net revenues were \$869,000 (principal) and \$124,271 (interest) and \$201,813, respectively.

Tax Increment Financing (TIF) Revenue & Refunding Bonds (Monongalia General Hospital Maple Drive Improvement Project) Series 2016 C

In 2011, the Monongalia County Commission issued Tax Increment Financing (TIF) revenue bonds to provide funds to finance the cost for the design, acquisition, construction, and equipping of certain infrastructure improvements in Monongalia County, West Virginia, consisting generally of all or some of the following: acquisition and construction of a new access road to Monongalia General Hospital and Mon Emergency Services from WV Route 705, with appropriate intersection improvements, curbing, grading, drainage, signage and all necessary appurtenances. The Series 2011 A Bonds were issued in the aggregate principal amount of \$3,015,000 and were currently refunded in October of 2016. The series 2016 C bonds were issued in the amount of \$5,153,000 of which \$4,378,604 was advanced, \$520,000 was repaid and \$3,938,604 remains outstanding. The bonds do not constitute a general obligation, or pledge of the full faith and credit of the County of Monongalia. The principal and interest on the tax increment revenue bonds are to be paid solely by the property taxes generated in association with the increased assessed values of property within the TIF district area. Estimated annual debt service requirements to maturity for the tax increment financing bonds that are not available as the loan is still being drawn down.

Pledged Revenues - Tax Increment Financing (TIF) Revenue Bonds

The County has pledged future tax increment revenue to repay \$5,153,000 in tax increment financing revenue bonds issued in 2016 of which \$4,378,604 has been advanced, \$520,000 has been repaid and \$3,938,604 is outstanding. Proceeds from the bonds provided financing for the design, acquisition, construction, and equipping of certain infrastructure improvements in Monongalia County, West Virginia, consisting generally of all or some of the following: acquisition and construction of a new access road to Monongalia General Hospital and Mon Emergency Medical Services from WV Route 705, with appropriate intersection improvements, curbing, grading, drainage, signage and all necessary appurtenances. The bonds are payable solely from the tax increment property taxes assessed and are collected in the district area and are payable through 2031. Annual principal and interest payments on the bonds are expected to require less than 100 percent of net revenues. The total principal and interest remaining to be paid on the bonds advanced and outstanding is not available as the loan is still being drawn down. Principal and interest paid for the current year and total customer net revenues were \$669,643 and \$673,985, respectively.

Tax Increment Financing (TIF) Revenue Bonds (Star City Project No 1) Series 2012 A

In 2012, the Monongalia County Commission issued Tax Increment Financing (TIF) revenue bonds to provide funds to finance the cost for the design, acquisition, construction, and equipping of certain infrastructure improvements in Monongalia County, West Virginia. The Series 2012 Bonds were issued in the aggregate principal amount of \$1,870,000, all of which has been advanced, \$1,238,120 has been repaid and \$631,880 is the amount outstanding. The bonds do not constitute a general obligation, or pledge of the full faith and credit of the County of Monongalia. The principal and interest on the tax increment revenue bonds are to be paid solely by the property taxes generated in association with the increased assessed values of property within the TIF district area. Estimated annual debt service requirements to maturity for the tax increment financing bonds that are outstanding are as follows:

Pledged Revenues - Tax Increment Financing (TIF) Revenue Bonds

The County has pledged future tax increment revenue to repay \$1,870,000 in tax increment financing revenue bonds issued in

Tax Increment Financing (TIF) Revenue Bonds (University Project) Series 2014 B Taxable

On January 30, 2014, the Monongalia County Commission issued \$4,515,000 of Series 2014 B Taxable Tax Increment Financing (TIF) Revenue Bonds to finance the development and financing of certain public infrastructure improvements within the TIF district including, but not limited to, the following: water lines, sanitary sewer lines, storm water drainage, new road construction, and road improvements, including without limitation a new interstate highway interchange and related improvements, intersection improvements, curbing, traffic control, lighting and other related infrastructure and utilities improvements, and the costs of planning, acquiring, constructing and equipping certain intercollegiate and other athletic facilities, including without limitation, a baseball park and other facilities, fields, parks and/or stadiums, and appurtenances and amenities relating thereto, all within or benefitting the TIF District. The bonds do not constitute a general obligation, or pledge the full faith and credit of the County of Monongalia. The principle and interest on the tax increment revenue bonds are to be paid solely by the property taxes generated in the TIF district area. On August 25, 2016, Monongalia County issued TIF Refunding Revenue Bonds (Development District No.4 - University Town Centre) Series 2016 A to retire the Series 2014 bonds.

Tax Increment Financing (TIF) Refunding Revenue Bonds (University Town Centre) Series 2016 A

On August 25, 2016, the Monongalia County Commission issued Taxable Tax Increment Financing (TIF) revenue bonds to provide funds to finance the current refunding and redemption of the outstanding TIF revenue bonds (University Project) Series 2014 B, for the purpose of paying project costs, and pay costs of issuance and related costs. The bonds do not constitute a general obligation, or pledge the full faith and credit of the County of Monongalia. The principal and interest on the tax increment revenue bonds are to be paid solely by the property taxes generated in association with the increased assessed values of property within the TIF district area. These bonds are not completely drawn, and the County is making interest only payments. Therefore, no amortization schedule has been finalized at June 30, 2019. The County made interest payments totaling \$896,593 this year, and the balance at June 30, 2019 of the Series 2016 A Bonds was \$25,249,400.

Pledged Revenues - Tax Increment Financing (TIF) Revenue Bonds

The County has pledged future tax increment revenue to repay \$28,000,000 in tax increment financing revenue bonds issued in 2016 of which \$380,000 has been advanced and is outstanding. Proceeds from the bonds provided funds to finance the current refunding and redemption of the outstanding TIF revenue bonds (University Project) Series 2014 B, for the purpose of paying project costs, and pay costs of issuance and related costs. The bonds are payable solely from the tax increment property taxes assessed and are collected in the district area and are payable through 2042. These bonds were currently refunded in 2016.

#### Debt Refunding

On August 25, 2016, the County issued \$28,000,000 in Senior Tax Increment Revenue and Refunding Bonds (Development District No.4 - University Town Centre) Series 2016 A with an average interest rate of 5.00 percent to refund \$4,515,000 of outstanding Tax Increment Revenue Bonds (University Project) Series 2014 B bonds with an average interest rate of 6.00 percent. The net proceeds of \$4,649,400 (after payment of \$841,633 in underwriting fees, insurance, other issuance costs, and reserve funds) were used to retire the old debt. As a result, the Series 2014 B bonds are defeased and the liability for those bonds has been removed from the Statement of Net Position.

Monongalia County, West Virginia, completed the refunding to reduce its total debt service payments over the next 25 years by \$1,419,078 and to obtain an economic gain of \$704,388.

Tax Increment Financing (TIF) Revenue Bonds (University Town Centre) Series 2016 B Taxable

On August 25, 2016, the Monongalia County Commission issued Taxable Tax Increment Financing (TIF) revenue bonds to provide funds to finance the costs of the design, acquisition, construction, and equipping of the Phase II TIF Project and paying costs of issuance of the bonds. The Series 2016 B Bonds were issued in the aggregate principal amount of \$15,380,000 of which \$380,000 was advanced and is outstanding. The bonds do not constitute a general obligation, or pledge of the full faith and credit of the County of Monongalia. The principal and interest on the tax increment revenue bonds are to be paid solely by the property taxes generated in association with the increased assessed values of property within the TIF district area. These bonds are not completely drawn, and the County is making interest only payments. Therefore, no amortization schedule has been finalized at June 30, 2019. The County made interest payments totaling \$19,000 this year, and the balance at June 30, 2019 of the Series 2016 A Bonds was \$380,000.

Pledged Revenues - Tax Increment Financing (TIF) Revenue Bonds

The County has pledged future tax increment revenue to repay \$15,380,000 in tax increment financing revenue bonds issued in 2016 of which \$380,000 has been advanced and is outstanding. Proceeds from the bonds provided funds to finance the costs of the design, acquisition, construction, and equipping of the Phase II TIF Project and paying costs of issuance of the bonds. The bonds are payable solely from the tax increment property taxes assessed and are collected in the district area and are payable through 2042. Annual principal and interest payments on the bonds are expected to require less than 100 percent of net revenues. The principal balance at June 30, 2019, is \$380,000. Principal and interest paid for the current year and total customer net revenues were \$19,000 (interest only) and \$0, respectively.

Special District Excise Tax Revenue Bonds

The county issues bonds where the government pledges income derived from special district excise tax revenue to pay debt service. Excise Tax revenue bonds currently outstanding are as follows:

Governmental Activities								
Purpose	Maturity Dates	Interest Rates	_	Issued		Retired		Balance June 30, 2018
University Series 2017 A Taxable	6/1/2043	variable	\$	76,360,000	\$	300,000	\$	76,060,000
University Series 2017 B Taxable	6/1/2043	variable		43,137,000		594,000		19,590,533
Total Excise Tax revenue bonds			\$_	119,497,000	\$_	894,000	\$_	95,650,533

Special District Excise Tax Revenue Bonds (University Project) Series 2014 A Taxable, Series 2014 B Taxable, and Series 2014 C Taxable

In 2014, the Monongalia County Commission issued special district excise tax revenue bonds to provide funds to finance the development and financing of certain public infrastructure improvements within the excise tax district including, but not limited to, the following: water lines, sanitary sewer lines, storm water drainage, new road construction, and road improvements, including without limitation a new interstate highway interchange and related improvements, intersection improvements, curbing, traffic control, lighting and other related infrastructure and utilities improvements, and the costs of planning, acquiring, constructing and equipping certain intercollegiate and other athletic facilities, including without limitation, a baseball park and other facilities, fields, parks and/or stadiums, and appurtenances and amenities relating thereto, all within or benefitting the Excise Tax District. The Series 2014 A Bonds were issued in the aggregate principle amount of \$22,165,000 of which \$21,383,813 was currently refunded. The Series 2014 B Bonds were issued in the aggregate principle amount of \$21,830,000 all of which was currently refunded. The Series 2014 C Bonds were issued in the aggregate principle amount of \$670,000 of which \$630,000 was currently refunded. According to the Bond Indenture the 2014 Excise Tax Bonds shall evidence indebtedness only to the extent that such principle has been advanced and is outstanding as reflected on such Record of Advances. The principle and interest on the Series 2014 A Bonds are to be paid from and secured by a pledge of 50% of the net excise tax revenues generated in the Excise Tax District with additional rent to be payable from time to time by West Virginia University pursuant to the lease purchase agreement. The principle and interest on the Series 2014 B and C Bonds are to be paid from and secured by a pledge of the remaining 50% of the net excise tax revenues generated in the Excise Tax District. These bonds are currently refunded at June 30, 2019.

Pledged Revenues - Special District Excise Tax Revenue Bonds

The County has pledged future excise tax revenues to repay \$44,665,000 in special district excise tax revenue bonds issued in 2014. Proceeds from the bonds provided funds to finance the development and financing of certain public infrastructure improvements within the excise tax district including, but not limited to, the following: water lines, sanitary sewer lines, storm water drainage, new road construction, and road improvements, including without limitation a new interstate highway interchange and related improvements, intersection improvements, curbing, traffic control, lighting and other related infrastructure and utilities improvements, and the costs of planning, acquiring, constructing and equipping certain intercollegiate and other athletic facilities, including without limitation, a baseball park and other facilities, fields, parks and/or stadiums, and appurtenances and amenities relating thereto, all within or benefitting the Excise Tax District. The bonds are payable solely from the excise taxes assessed and are collected in the district area and are payable through 2043. Annual principal and interest payments on the bonds are expected to require less than 100 percent of net revenues. The bonds were currently refunded in October of 2017.

Special District Excise Tax Revenue Refunding and Improvement Bonds (University Town Centre Economic Opportunity Development District) Series 2017 A

In 2017, the Monongalia County Commission issued special district excise tax revenue bonds to provide funds to finance the development and financing of certain public infrastructure improvements within the excise tax district including, but not limited to, the following: water lines, sanitary sewer lines, storm water drainage, new road construction, and road improvements, including without limitation a new interstate highway interchange and related improvements, intersection improvements, curbing, traffic control, lighting and other related infrastructure and utilities improvements, and the costs of planning, acquiring, constructing and equipping certain intercollegiate and other athletic facilities, including without limitation, a baseball park and other facilities, fields, parks and/or stadiums, and appurtenances and amenities relating thereto, all within or benefitting the Excise Tax District. The Series 2017 A Bonds were issued in the aggregate principle amount of \$76,360,000 all of which was advanced and is outstanding. According to the Bond Indenture the 2017 Excise Tax Bonds shall evidence indebtedness only to the extent that such principle has been advanced and is outstanding as reflected on such Record of Advances. The principle and interest on the Series 2017 A Bonds are to be paid from and secured by a pledge of 50% of the net excise tax revenues generated in the Excise Tax District with additional rent to be payable from time to time by West Virginia University pursuant to the lease purchase agreement. Estimated annual debt service requirements to maturity for the bonds that are outstanding are as follows:

#### Conduit Debt Obligations

The Monongalia County Building Commission has issued Series 2010 Revenue Bonds to provide financial assistance to Sundale Nursing Home for the design, acquisition, construction, and equipping of a palliative care wing to the existing facility deemed to be in the public interest. The notes are secured by Sundale Nursing Home and are payable solely from charges for services. Upon repayment of the notes, ownership of the acquired equipment and facilities transfers to Sundale Nursing Home. Neither the Building Commission, the County, the State, nor any political subdivision thereof is obligated in any manner for repayment of the notes. Accordingly, the notes are not reported as liabilities in the accompanying financial statements.

#### H. Restricted Assets

The balances of the restricted asset accounts for the primary government are as follows:

	_	Governmental Activities
Revenue bond debt service accounts	\$	756,408
TIF bond debt service accounts		9,049,473
Excise tax bond debt service accounts	-	
Total restricted assets	\$	9,805,881

#### IV. OTHER INFORMATION

#### A. Risk Management

The government is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries insurance for these various risks.

Workers' Compensation Fund (WCF): Private insurance companies could begin to offer workers compensation coverage to government employers beginning July 1, 2010. Workers compensation coverage is provided for this entity by Brick Street.

Liabilities are reported when it is probable a loss has occurred and the amount of the loss can be reasonably estimated.

#### B. Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds

The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the government's counsel that resolution of these matters will not have a material effect on the financial condition of the government.

#### C. Deferred Compensation Plan

The government offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all full-time government employees at their option, permits participants to defer a portion of their salary until future years. The deferred compensation is not available to participants until termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are held for the exclusive benefit of the participants and their beneficiaries.

#### V. EMPLOYEE RETIREMENT SYSTEMS AND PLANS

#### General Information about the Pension Plans

Monongalia County, West Virginia participates in state-wide, cost-sharing, multiple-employer defined benefit plans on behalf of county employees. The system is administered by agencies of the State of West Virginia and funded by contributions from participants, employers, and state appropriations, as necessary.

All of the County's cost-sharing multiple-employer plans are administered by the Consolidated Public Retirement Board (CPRB), which acts as a common investment and administrative agent for all of the participating employers. CPRB issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CPRB website at www.wvretirement.com. The following is a summary of eligibility factors, contribution methods, and benefit provisions:

#### Public Employees Retirement System

Eligibility to participate

All county full-time employees, except those covered by other pension plans.

Authority establishing contribution obligations and benefit

provisions

West Virginia State Code §5-10d discusses the Consolidated Public Retirement Board, which administers all public retirement plans in the state of West

Tier 1 Plan member's contribution rate hired before 7/1/2015

#### West Virginia Deputy Sheriff Retirement System (WVDRS)

Eligibility to participate

West Virginia deputy sheriffs first employed after the effective date and any deputy sheriffs hired prior to the effective date who elect to become members.

Authority establishing contribution obligations and benefit

provisions

West Virginia State Code §5-10d discusses the Consolidated Public Retirement Board, which administers all public retirement plans in the state of West Virginia. The WVDRS is also discussed in West Virginia State Code §7-14d.

Funding policy and contributions

Certain fees for reports generated by sheriff's offices are paid to this plan in accordance with West Virginia State Code. WVDRS members are required to contribute 8.5% of their annual covered salary and the county is required to contribute 12.0%. The contribution requirements of WVDRS members are established and may be amended only by the State of West Virginia Legislature.

Period required to vest

Five years

Benefits and eligibility for distribution

A member who has attained age 60 and has earned 5 or more years of contributing service or age 50 and if the sum of his/her age plus years of credited service is equal to or greater than 70. The final average salary (three highest consecutive years in the last ten years) times the years of service times 2.25% equals the annual retirement benefit.

Deferred retirement option

No deferred retirement option is available.

Provisions for cost of living adjustments or death benefits

This plan has no provisions for cost of living adjustments. There are provisions for death benefits.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At fiscal year-end, the government reported the following liabilities for its proportionate share of the net pension liabilities. The net pension liabilities were measured as of June 30, 2018, and the total pension liability used to calculate the net pension liabilities was determined by an actuarial valuation as of that date. The government's proportion of the net pension liabilities was based on a projection of the government's long-term share of contributions to the pension plans relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2018, the government's reported the following proportions and increase/decreases from its proportion measured as of June 30, 2017:

	PERS			WVDRS		
Amount for proportionate share of net pension liability	\$	1,646,799	\$	211,347		
Percentage for proportionate share of net pension liability		0.637672%		3.937168%		
Increase/decrease % from prior proportion measured		0.02225%		0.02369%		

For this fiscal year, the government recognized the following pension expenses.

	 PERS	WVDRS		
Pension expense	\$ 330,056	\$	62,577	

The government reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

#### Public Employees Retirement System

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of July 1, 2015 for all plans, using the following actuarial assumptions, applied to all periods included in the measurement.

### MONONGALIA COUNTY, WEST VIRGINIA NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended June 30, 2019

#### Public Employees Retirement System

Actuarial assumptions

 Inflation rate
 3.00%

 Salary increases
 3.35% - 6.0%

 Investment Rate of Return
 7.50%

Healthy females - 1971 GAM
Disabled males - 1971 GAM
Disabled females - Revenue ruling 96-7

The actuarial assumptions used in the valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2014.

#### West Virginia Deputy Sheriff Retirement System

Actuarial assumptions

Inflation rate 3.00%

Salary increases 5.0% for first 2 years of service

4.5% for next 3 years of service 4.0% for the next 5 years of service, and

3.5% thereafter

Investment Rate of Return 7.50%

Mortality rates were based on the RP-2014 Non-annuitant mortality table, scale MP; Retired and disabled RP2014 healthy annuitant mortality table, scale MP.

The actuarial assumptions used in the July 1, 2016 DSRS valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2016.

The long-term expected rate of return on pension plan investments were determined using a building-block method in which best-estimate rates of expected future real rates of returns (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class included are summarized in the following chart:

	Long-term Expected	PERS	DSRS
	Real Rate	Target Asset	Target Asset
<u>Investment</u>	of Return	Allocation	Allocation
US Equity	4.5%	27.5%	27.5%
International Equity	8.6%	27.5%	27.5%

Government's proportionate snare of w VDSKS's net pension habitity (asset)	\$	966,772	\$	(211,347)	\$	(1,181,938)		

#### W. OTHER POST-EMPLOYEMENT BENEFIT PLAN

#### West Virginia Retiree Health Benefit Trust Fund (RHBT)

#### Plan description:

The Commission participates in the West Virginia Other Postemployment Benefit Plan (the Plan) a cost-sharing, multiple employer, defined benefit other post-employment benefit plan and covers the retires of State agencies, colleges and universities, county boards of education, and other government entiti+B1829es as set forth in the West Virginia Code Section 5-16D-2 (the Code). The Plan is administered by a combination of the West Virginia Public Employees Insurance Agency (PEIA) and the RHBT staff. Plan benefits are established and revised by PEIA and the RHBT management with approval of the Finance Board. The Finance Board is comprised of nine members. Finance Board members are appointed by the Governor, serve a term of four years and are eligible for reappointment. The State Department of Administration cabinet secretary serves as the Chairman of the Board. Four members represent labor, education, public employees and public retirees. Four remaining members represent the public-at-large.

RHBT issues publicly available reports that include a full description of the other post-employment benefit plan regarding benefit provisions, assumptions and membership information that can be obtained by contacting Public Employees Insurance Agency, 601 57th Street SE, Suite 2, Charleston, West Virginia 25304-2345, by calling (888) 680-7342 or can be found on the PEIA website at www.peia.wv.gov.

#### Benefits Provided:

The Commission's employees who retire are eligible for PEIA health and life benefits, provided they meet the minimum The RHBT Medicare-eligible retired employees and their Medicare-eligible dependents receive medical and drug coverage from Eligible participants hired after June 30, 2010, will be required to fully fund premium contributions upon retirement. The Plan is a closed plan to new entrants.

#### Contribution Requirements:

Employer contributions consist of pay as you go premiums, commonly referred to as paygo, and retiree leave conversion billings. Employees are not required to contribute to the OPEB plan.

Paygo premiums are established by the Finance Board annually. All participating employers are required by statute to contribute to the RHBT this premium at the established rate for every active policyholder per month. The paygo rates for fiscal year 2018

The Commission's contributions to the West Virginia Retiree Health Benefit Trust Fund for the year ended June 30, 2018 was \$96,996. No amount was payable at year-end.

The State of West Virginia (the State) is a nonemployer contributing entity that provides funding through Senate Bill 419, effective July 1, 2012 and amended by West Virginia Code §11-21-96. For fiscal years beginning on and after July 1, 2016, this Senate Bill and corresponding State Code section requires that an annual amount of \$30 million from the State shall be dedicated for payment of the unfunded liability of the RHBT fund. The \$30 million annual contribution is to continue through July 1, 2037, or until the unfunded liability has been eliminated, whichever comes first.

The State is a nonemployer contributing entity that provides funding through West Virginia State Code §11B-2-32. The Financial Stability Fund is a plan to transfer an annual amount of \$5 Million to the RHBT from special revenue funds to be used to lower retiree premiums, to help reduce benefit cuts, to help reduce premium increases or any combination thereof. The \$5 million transferred pursuant to this Code shall be transferred annually into the RHBT through June 30, 2020.

The State is a nonemployer contributing entity that provides funding through Senate Bill 469 which was passed February 10, 2012, granting OPEB liability relief to the 55 County Boards of Education effective July 1, 2012. This special funding under the school aid formula subsidizes employer contributions of the county boards of education and contributes to the overall unfunded OPEB liability.

#### OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to OPEB

At fiscal year-end, the Commission reported the following liability for its proportionate share of the net OPEB liability. The net pension liability was measured as of June 30, 2018 for the Commission's fiscal year ended June 30, 2019, using the actuarial assumptions and methods described in the appropriate section of this note. The government's proportion of the net pension liability was based on a projection of the government's long-term share of contributions to the pension plans relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2019, the Commission reported the following proportions and increase/decreases from its proportion as of June 30, 2018:

		2019
Amount of proportionate share of net OPEB liability	\$	2,226,903
Percentage of proportionate share of the net OPEB liability	0.10	03797222%
Increase/(decrease) in % from prior proportion measured	-0.0	04570252%
		2019
Commission's proportionate share of the net OPEB liability	\$	2,226,903
State's porportional share of the net OPEB libility associated with the Commission		460,241
Total portion of the net OPEB liability associated with the Commission	\$	2,687,144

For the year ended June 30, 2019, the Commission recognized the following OPEB expense and support provided by the State:

	 2018
OPEB expense Commission	\$ (76,656)
OPEB expense State support	 140,680
Total OPEB expense	\$ 64,024
State support revenue	\$ 140.680

The Commission reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources for the year ended June 30, 2019:

2019	Outf	ferred lows of ources	Ir	Deferred aflows of esources
Net difference between projected and actual investment earnings	\$	-	\$	41,220
Differences between expected and actual experience		-		32,940
Changes in assumptions		-		222,353
Changes in proportion and differences between		-		594,157
contributions and proportionate share of contributions		201,328		-
Contributions subsequent to the measurement date				
	\$	201,328	\$	890,670
Total				

The amount reported as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability on June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year	
Ending June 30:	Amount
2020	(294,150)
2021	(294,150)
2022	(240,349)
2023	(62,021)
Total	(890,670)

#### Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2017 and rolled forward to June 30, 2018 for all plans, using the following actuarial assumptions, applied to all periods included in the measurement.

OPEB	June 30, 2018
Actuarial Cost Method	Entry age normal cost method
Asset Valuation Method	Fair value
Amortization Method	Level percentage of payroll over a 21 year closed
Amortization Period	21 years closed as of June 30, 2016
Actuarial Assumptions:	•
Investment Rate of Return	7.15%, net of OPEB plan investment expense, including
Projected Salary Increases	Dependent upon pension system. Ranging from 3.0% to
Inflation Rate	2.75%
Discount Rate	7.15%
Healthcare Cost Trends	Actual trend used for 2017. For fiscal years on and after
Mortality Rates	projected with Scale AA on a fully generational basis
Date Range in Most Recent Experience Study	• •
	July 1 2010 to June 30 2015

July 1, 2010 to June 30, 2015

The long term expected rate of return of 7.15% on the OPEB plan investments was determined by a combination of an expected long-term rate of return of 7.50% for long-term assets invested with the WV Investment Management Board and an expected short-term rate of return of 3.00% for assets invested with the West Virginia Board of Treasury Investments.

Long-term pre-funding assets are invested the WVIMB. The strategic asset allocation consists of 55% equity, 15% fixed income, 10% private equity, 10% hedge fund and 10% real estate invested. Short-term assets used to pay current year benefits and expenses are invested with the WVBTI.

The long-term expected rate of return on OPEB plan investments were determined using a building-block method in which estimates of expected future real rates of returns (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The best estimates of geometric rates of return for each asset class are summarized in the following table:

	Long-term Expected
Asset Class	Rate of Return
Large Cap Domestic	17.0%
Non-Large Cap Domestic	22.0%
International Qualified	24.6%
International Non-Qualified	24.3%
International Equity	26.2%
Short-Term Fixed	0.5%
Total Return Fixed Income	6.7%
Core Fixed Income	0.1%
Hedge Fund	5.7%
Private Equity	19.6%
Real Estate	8.3%
Opportunistic Income	4.8%
Cash	0.0%

#### Discount Rate

The discount rate used to measure the OPEB liability was 7.15 percent. The projection of cash flows used to determine the discount rates assumed that employer contributions will continue to follow the current funding policies. Based on those assumptions, the fiduciary net position for each defined benefit pension plan was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rates of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

The following chart presents the sensitivity of the net pension liability to changes in the discount rate, calculated using the discount rates as used in the actuarial evaluation, and what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage point higher than the current rate:

				Curtin		
	1%	decrease	D	iscount Rate	1%	Increase
		(6.15%)		(7.15%)		(8.15%)
Proportionate share of net OPEB	_	0.617.001		2.026.002	_	1 001 401
liability	\$	2,617,281	\$	2,226,903	\$	1,901,481

#### Healthcare Cost Trend Rate

The following table presents the Commission's proportionate share of its net OPEB liability calculated using the healthcare cost trend rate of percent and the impact of using a discount rate that is 1% higher or lower than the current rate.

				Current		
	1%	decrease	D	scount Rate	1%	Increase
		(6.15%)		(7.15%)		(8.15%)
Proportionate share of net OPEB						
liability	\$	1.842.642	\$	2,226,903	\$	2,695,111

### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

February 12, 2020

Monongalia County Commission 243 High Street Room 123 Morgantown, WV 26505

To the Board of Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of **Monongalia County**, West Virginia (the County) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated February 12, 2020.

#### Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the County's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the County's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Monongalia County Commission Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

#### Compliance and Other Matters

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

#### Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
